# Putnam Tax-Free High Yield Fund

## Pursuing a high level of tax-free income

**Tax-advantaged income**

The fund pursues above-average income free from federal income tax by investing in higher-yielding, lower-rated municipal bonds.

**Focus on performance**

The portfolio managers select bonds that offer attractive return potential relative to risk and position the portfolio based on Putnam's fundamental research and risk management.

**Leading research**

Members of Putnam's fixed-income organization have a range of skills to analyze the credit risk of below-investment-grade bonds and help build a well-diversified portfolio of tax-exempt bonds.

**Sector weightings**

Health care	19.0%
Education	13.6
State debt	10.9
Transportation	10.5
Tobacco	8.7
Utilities	7.9
Land	6.3
Local debt	5.1
Other sectors	15.2
Cash and net other assets	2.8

**Portfolio quality**

AAA	1.0%
AA	8.6
A	21.1
BBB	29.2
BB	12.7
B	5.7
Not rated	19.0
Cash and net other assets	2.8

The fund invests 59.8% of its assets in investment-grade tax-exempt bonds.

Credit qualities are shown as a percentage of the fund's net assets. A bond rated BBB or higher (SP-3 or higher, for short-term debt) is considered investment grade. This chart reflects the highest security rating provided by one or more of Standard & Poor's, Moody's, and Fitch. Ratings may vary over time. Cash and net other assets, if any, represent the market value weights of cash, derivatives, and short-term securities in the portfolio. **The fund itself has not been rated by an independent rating agency**

Allocations will vary over time. Due to rounding, percentages may not equal 100%.

**Protecting investors' principal, the fund's net asset value has remained stable**

**Growth of a \$10,000 investment**

With dividends reinvested, the fund has returned an average of 5.9% annually since inception.

Current performance may be lower or higher than the quoted past performance, which cannot guarantee future results. Share price, principal value, and return will vary, and you may have a gain or a loss when you sell your shares. Performance of class R6 shares assumes reinvestment of distributions and does not account for taxes. Class R6 shares, available to qualified employee-benefit plans only, are sold without an initial sales charge and have no CDSC. Performance for class R6 shares prior to their inception is derived from the historical performance of class Y shares and has not been adjusted for the lower investor servicing fees applicable to class R6 shares; had it, returns would have been higher. **Attractive yield**

	Net asset value
Current 30-day SEC yield*	2.78%
Taxable equivalent†	4.70%

\* Based only on investment income, calculated using the maximum offering price in accordance with SEC guidelines.

† Assumes a maximum 40.80% combined federal and state tax rate inclusive of the 3.80% Medicare surtax.

**Highlights of five-year performance periods (9/9/85–6/30/19)\***

Best 5-year return	Best period end date	Worst 5-year return	Worst period end date	Average 5-year return	% of 5-year periods with positive returns	Number of positive 5-year periods	Number of negative 5-year periods
11.23%	12/31/13	-2.32%	12/31/08	5.40%	98%	114	2

\* Based on annualized returns for quarterly rolling periods.

The Bloomberg (BBG) Barclays Municipal Bond Index is an unmanaged index of long-term fixed-rate investment-grade tax-exempt bonds. You cannot invest directly in an index.

Lipper rankings for class R6 shares are based on total return without sales charge relative to all share classes of funds with similar objectives as determined by Lipper.

**Average effective maturity** depends on the maturity of the underlying bonds within each fund. The longer the maturity, the greater the interest-rate risk. **Average stated maturity** is determined based on the legal final maturity of a bond. **Duration to worst** is the duration of a bond computed assuming the bond is called at the worst possible time and uses the date associated with the lowest yield. Depending on the interest-rate environment and structure of the bond, there may be scenarios in which the worst possible time for the bond to be paid off is the maturity date. **Option adjusted duration** is the modified duration of a bond after adjusting for any embedded optionality.

Tax-free funds may not be suitable for IRAs and other non-taxable accounts.

Not all share classes are available on all platforms.

**Consider these risks before investing:** Capital gains, if any, are taxed at the federal and, in most cases, state levels. For some investors, investment income may be subject to the federal alternative minimum tax. Income from federally tax-exempt funds may be subject to state and local taxes. Bond investments are subject to interest-rate risk (the risk of bond prices falling if interest rates rise) and credit risk (the risk of an issuer defaulting on interest or principal payments). Interest-rate risk is generally greater for longer-term bonds, and credit risk is generally greater for below-investment-grade bonds. Unlike bonds, funds that invest in bonds have fees and expenses. The fund may invest significantly in particular segments of the tax-exempt debt market, making it more vulnerable to fluctuations in the values of the securities it holds than a more broadly invested fund. Interest the fund receives might be taxable. The value of investments in the fund's portfolio may fall or fail to rise over extended periods of time for a variety of reasons, including general economic, political or financial market conditions, investor sentiment and market perceptions, government actions, geopolitical events or changes, and factors related to a specific issuer, geography, industry or sector. These and other factors may lead to increased volatility and reduced liquidity in the fund's portfolio holdings. You can lose money by investing in the fund.

**Request a prospectus or a summary prospectus, if available, from your financial representative or by calling Putnam at 1-800-225-1581. These prospectuses include investment objectives, risks, fees, expenses, and other information that you should read and consider carefully before investing.**
