

Objective

The fund seeks as high a rate of current income as we believe is consistent with preservation of capital and maintenance of liquidity.

A cost-conscious and convenient option

- No up-front sales charge
- No redemption fees
- No minimum holding period

If an exchange is made from an existing Putnam fund that is currently under a 9-month CDSC period into Putnam Short Duration Income Fund, and liquidation takes place, then a possible 1% redemption fee may apply.

Putnam Short Duration Income Fund

Seeking capital preservation and a higher rate of current income

A broader opportunity set

The fund invests in a diversified portfolio composed of short duration, investment-grade money market and other fixed-income securities.

Active risk management

In today's complex bond market, the fund's experienced managers actively manage risk with the goal of superior risk-adjusted performance over time.

Higher income potential

Access to a wider range of income opportunities means the fund may offer higher income potential than other short-term investments.

Portfolio quality

A-1+	5.1%
A-1	8.9
A-2	27.8
A-3	2.8
AAA	1.5
AA	18.0
A	28.1
BBB	8.4
Not Rated	0.3
Net cash	-0.9

Holdings represent 100% of the portfolio and will vary over time.

Credit qualities are shown as a percentage of the fund's net assets. A bond rated BBB or higher (A-3/SP-3 or higher, for short-term debt) is considered investment grade. This chart reflects the highest security rating provided by one or more of Standard & Poor's, Moody's, and Fitch. Ratings may vary over time. Net cash, if any, represents the market value weights of cash and derivatives and may show a negative market value as a result of the timing of trade versus settlement date transactions. **The fund itself has not been rated by an independent rating agency.**

Portfolio composition

Investment-grade corporate bonds	52.1%
Commercial paper	38.2%
Certificates of deposit	4.6%

Over 3 years	3.1

Holdings represent 100% of the portfolio and will vary over time.

The fund may be attractive to

- Investors seeking a broader range of income opportunities for their conservative allocations
- Investors who are in, or near, retirement and are seeking capital preservation and monthly income distributions
- Investors seeking a fund that employs modern portfolio strategies in an effort to limit market risk

With subsidy
1.19%

Average effective duration

provides a measure of a
fund's interest-rate sensitivity.
The longer a fund's duration,
the more sensitive the fund is
to shifts in interest rates.

Standard deviation measures
how widely a set of values
varies from the mean. It is a
historical measure of the
variability of return earned by
an investment portfolio. For
fixed income and equity
funds, risk statistics are
measured using a 3 and 5-
year regression analysis
respectively. For funds with
shorter track records, Since
Inception analysis is used.

Average effective maturity
takes into account the
likelihood of the bond being
called.

For informational purposes
only. Not an investment
recommendation.

Top ten issuers

Holdings in the top ten issuers represent 10.3% of the portfolio and will vary over time. All holdings are subject to review in accordance with the fund's investment strategy.

Allocations will vary over time. Due to rounding, percentages may not equal 100%.

The "Net cash" category may show a negative market value percentage as a result of the timing of trade verses settlement date transactions.

The BofA Merrill Lynch U.S. Treasury Bill Index is an unmanaged index that tracks the performance of U.S. dollar denominated U.S. Treasury Bills publicly issued in the U.S. domestic market. Qualifying securities must have a remaining term of at least one month to final maturity and a minimum amount outstanding of \$1 billion. The index data referenced herein is the property of Merrill Lynch, Pierce, Fenner & Smith Incorporated ("BofAML") and/or its licensors and has been licensed for use by Putnam Investments. BofAML and its licensors accept no liability in connection with its use. See putnam.com for a full copy of the Disclaimer. You cannot invest directly in an index.

Not all share classes are available on all platforms.

Consider these risks before investing: Putnam Short Duration Income Fund is not a money market fund. The effects of inflation may erode the value of your investment over time. Funds that invest in government securities are not guaranteed. Mortgage-backed investments, unlike traditional debt investments, are also subject to prepayment risk, which means that they may increase in value less than other bonds when interest rates decline and decline in value more than other bonds when interest rates rise. We may have to invest the proceeds from prepaid investments, including mortgage backed investments, in other investments with less attractive terms and yields. Bond prices may fall or fail to rise over time for several reasons, including general financial market conditions, changing market perceptions of the risk of default, changes in government intervention, and factors related to a specific issuer or industry. These factors may also lead to periods of high volatility and reduced liquidity in the bond markets. Bond investments are subject to interest-rate risk (the risk of bond prices falling if interest rates rise) and credit risk (the risk of an issuer defaulting on interest or principal payments). Interest-rate risk is greater for longer-term bonds, and credit risk is greater for below-investment-grade bonds. Credit risk is generally greater for debt not backed by the full faith and credit of the U.S. government. Risks associated with derivatives include increased investment exposure (which may be considered leverage) and, in the case of over-the-counter instruments, the potential inability to terminate or sell derivatives positions and the potential failure of the other party to the instrument to meet its obligations. Unlike bonds, funds that invest in bonds have fees and expenses. You can lose money by investing in the fund.

Request a prospectus or a summary prospectus, if available, from your financial representative or by calling Putnam at 1-800-225-1581. These prospectuses include investment objectives, risks, fees, expenses, and other information that you should read and consider carefully before investing.
