Allocations may not total 100% of net assets because the weights include the notional value of derivatives in addition to the market value of securities or because of rounding.

Future share values, market prices and investment returns will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost.

1 These Funds' portfolios include non-investment-grade high-yield debt securities whose lower ratings reflect the greater vulnerability of the issuer to adverse changes in general economic conditions and/or the issuer's business or financial condition. Investors should carefully consider their ability to assume such risks before purchasing shares of these Funds.

2 These Funds use investment leverage to enhance the potential return to common shareholders by issuing Preferred Shares with dividends based on short-term rates and investing the proceeds in longer-term bonds. Investment leverage may increase the volatility of the Fund's net asset value. In addition, if the cost of leverage rises, the Fund's investment income will fall.

All information is as of month end stated above and may have changed since then. No representation is made as to current portfolio holdings and characteristics.

For more information about risks, fees, and expenses of investing in a closed-end fund talk to your financial advisor.

For Dealer Use only - Not for Public Distribution

For Premier Income and Master Intermediate Income:

Credit qualities are shown as a percentage of the fund's net assets. A bond rated BBB or higher (A-3 or higher, for short-term debt) is considered investment grade. This chart reflects the highest security rating provided by one or more of Standard & Poor's, Moody's, and Fitch. To-be-announced (TBA) mortgage commitments, if any, are included based on their issuer ratings. Ratings may vary over time. Cash, derivative instruments, and net other assets are shown in the not-rated category. Payables and receivables for TBA mortgage commitments are included in the not-rated category and may result in negative weights. The fund itself has not been rated by an independent rating agency.

For Managed Municipal Income Trust and Municipal Opportunities Trust:

Credit qualities are shown as a percentage of net assets. A bond rated BBB or higher (SP-3 or higher, for short-term debt) is considered investment grade. This chart reflects the highest security rating provided by one or more of Standard & Poor's, Moody's, and Fitch. Ratings may vary over time. Cash and net other assets, if any, represent the market value weights of cash, derivatives, and short-term securities in the portfolio. The fund itself has not been rated by an independent rating agency.
