# **Message from the Trustees**

March 14, 2023

#### Dear Fellow Shareholder:

Stock and bond markets rose in early 2023 as inflation continued to ease and the U.S. Federal Reserve moderated its interest-rate increases. Investors showed optimism that the Fed might slow the economy and reduce inflation without causing a recession. Still, caution may be warranted. While the Fed has reduced the size of its interest-rate increases, it also signaled that more rate hikes are likely if concerns persist about a resurgence in inflation.

Putnam's investment teams believe a recession is possible this year or next. However, they also are finding what they believe to be attractive investment opportunities in a range of asset classes, including stocks and taxable and tax-exempt bonds. As active researchers, our teams analyze interest-rate and credit risks as they seek out investments for your fund. They also consider how stocks and bonds are likely to perform in uncertain economic conditions.

Thank you for investing with Putnam.

Respectfully yours,

Robert L. Reynolds
President and Chief Executive Officer
Putnam Investments

**Kenneth R. Leibler** Chair, Board of Trustees

## About the fund

# A mix of stocks and bonds in a classic balanced portfolio

George Putnam Balanced Fund was introduced in 1937, at a time when many investors considered the stock market to be risky. Named for the founder of Putnam Investments, the fund offered an innovative concept for the time — a diversified portfolio with bonds to balance the risk of stocks.

## A balanced approach, grounded in research

The fund's classic balanced approach continues to serve investors today, under the leadership of seasoned portfolio managers who use fundamental research to find opportunities and manage risk.

Kathryn B. Lakin Portfolio Manager Director of Equity Research Industry since 2008 At Putnam since 2012

Andrew C. Benson
Portfolio Manager
Industry since 2008
At Putnam since 2008

# **66** The fund's diversification and balanced approach are designed to moderate volatility for investors. **JJ**

Diversification does not guarantee a profit or ensure against loss. It is possible to lose money in a diversified portfolio.

## Experienced managers pursue a broad range of opportunities.

The fund's typical allocation is 60% stocks and 40% bonds. In managing the stock portion of the portfolio, Kate Lakin pursues a risk-aware style, investing in stocks across all sectors that may have value or growth characteristics. For the fund's fixed income investments, Andrew Benson assembles a mix of government and investment-grade bonds. Historically, government bonds have shown relatively low correlation with stocks, which can help to dampen the impact of stock market downturns on fund performance.

## Providing the benefits of balanced investing since 1937

Growth of a \$10,000 investment since fund inception, 11/5/37 through 1/31/23

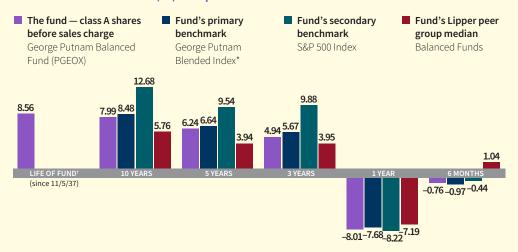

Data are historical. Past performance is not a guarantee of future results. More recent returns may be less or more than those shown. Investment return and principal value will fluctuate, and you may have a gain or a loss when you sell your shares. For the most recent month-end performance, visit putnam.com. Performance assumes reinvestment of distributions and does not account for taxes. Returns for class A shares do not reflect a sales charge of 5.75%. Had a sales charge been reflected, returns would have been lower. Returns for other classes of shares may vary. The period illustrated is longer than the investment horizon of many investors.

The chart is plotted on a logarithmic scale so that comparable percentage changes appear similar.

## Performance history as of 1/31/23

## Annualized total return (%) comparison

Current performance may be lower or higher than the quoted past performance, which cannot guarantee future results. Share price, principal value, and return will fluctuate, and you may have a gain or a loss when you sell your shares. Performance of class A shares assumes reinvestment of distributions and does not account for taxes. Fund returns in the bar chart do not reflect a sales charge of 5.75%; had they, returns would have been lower. See page 5 and pages 11–14 for additional performance information. For a portion of the periods, the fund had expense limitations, without which returns would have been lower. To obtain the most recent month-end performance, visit putnam.com.

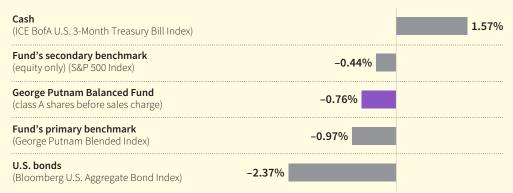

Returns for periods of less than one year are not annualized.

All Bloomberg indices are provided by Bloomberg Index Services Limited.

Lipper peer group median is provided by Lipper, a Refinitiv company.

- \* The George Putnam Blended Index is an unmanaged index administered by Putnam Management, 60% of which is the S&P 500 Index and 40% of which is the Bloomberg U.S. Aggregate Bond Index.
- † The fund's benchmarks, the George Putnam Blended Index and the S&P 500 Index, were introduced on 12/31/78 and 12/31/69, respectively, and its Lipper group (Balanced Funds) was introduced on 12/31/59; they all post-date the inception of the fund's class A shares.

# Recent broad market index and fund performance

This comparison shows your fund's performance in the context of broad market indexes for the six months  $ended\ 1/31/23. \ See page\ 4\ and\ pages\ 11-14\ for\ additional\ fund\ performance\ information.\ Index\ descriptions\ can$ be found on pages 17-18.

# Interview with your fund's portfolio managers

Andrew Benson and Kate Lakin discuss the investing environment and fund performance for the six months ended January 31, 2023, as well as their outlook for the fund.

**Andrew C. Benson** Portfolio Manager

Andrew has a B.A. in Economics from Tufts University. He has been in the investment industry since he joined Putnam in 2008.

**Kate Lakin** Portfolio Manager

Kate is Director of Equity Research. She has an M.B.A. from Yale School of Management and a B.A. from Wellesley College. Kate joined Putnam in 2012 and has been in the investment industry since 2008.

# Please describe investing conditions during the reporting period.

Stocks and bonds faced multiple macro-driven headwinds during the period. High inflation, rising interest rates, supply chain disruptions, and the Russia-Ukraine War weighed on investor sentiment.

To help tame multidecade-high inflation, the U.S. Federal Reserve and other global central banks raised interest rates more aggressively early in the period. Business spending declined as borrowing rates increased. U.S. home sales, which had peaked during the pandemic, began to moderate. Investors feared that the Fed's hawkish interest-rate policy would tip the U.S. economy into a recession.

By November 2022, the pace of inflation, as measured by the Consumer Price Index [CPI], showed signs of easing. The Fed started to pare back its interest-rate hikes in December 2022. As of February 1, 2023, the federal funds rate reached 4.50%–4.75%, its highest level since October 2007.

Positive corporate earnings results and the prospect of lower interest rates helped lift stock performance later in the period. U.S. stocks

### Sector allocations

• Information technology stocks	15.1%
<ul> <li>Corporate bonds and notes</li> </ul>	14.5
• U.S. Treasuries	12.9
<ul><li>Health care stocks</li></ul>	9.5
• Agency pass-through securities	8.2
<ul> <li>Consumer discretionary stocks</li> </ul>	7.4
• Financials stocks	6.6
<ul><li>Industrial stocks</li></ul>	5.4
• Communication services stocks	4.8
<ul><li>Other sectors</li></ul>	13.7
• Cash and net other assets	1.9

Allocations are shown as a percentage of the fund's net assets as of 1/31/23. Cash and net other assets, if any, represent the market value weights of cash, derivatives, short-term securities, and other unclassified assets in the portfolio. Summary information may differ from the portfolio schedule included in the financial statements due to the inclusion of derivative securities, any interest accruals, the exclusion of as-of trades, if any, the use of different classifications of securities for presentation purposes, and rounding. Holdings and allocations may vary over time.

# Top 10 equity holdings

HOLDING (PERCENTAGE OF FUND'S NET ASSETS)	INDUSTRY	OVER/UNDERWEI	
Microsoft Corp. (3.3%)	Software	-2.1%	
Apple, Inc. (2.7%)	Technology hardware, storage, and peripherals	-3.6%	
Alphabet, Inc. (2.3%)	Interactive media and services	-1.0%	
Amazon.com, Inc. (1.8%)	Internet and direct marketing retail	-0.9%	
Exxon Mobil Corp. (1.6%)	Oil, gas, and consumable fuels		0.2%
Mastercard, Inc. (1.4%)	IT services		0.5%
Oracle Corp. (1.4%)	Software		1.0%
Home Depot, Inc. (The) (1.3%)	Specialty retail		0.3%
NVIDIA Corp. (1.3%)	Semiconductors and semiconductor equipment	-0.1%	
UnitedHealth Group, Inc. (1.2%)	Health care providers and services	-0.2%	

This table shows the fund's top 10 equity holdings by percentage of the fund's net assets as of 1/31/23. Short-term investments and derivatives, if any, are excluded. Summary information may differ from the portfolio schedule included in the financial statements due the use of different classifications of securities for presentation purposes. Holdings may vary over time.

returned –0.44%, as measured by the S&P 500 Index, for the reporting period. Bond losses also narrowed over the period. Investment-grade [IG] corporate bonds, as measured by the Bloomberg U.S. Aggregate Bond Index, returned –2.37%.

Corporate credit spreads tightened as risk sentiment improved. [Spreads are the yield advantage credit-sensitive bonds offer over comparable-maturity U.S. Treasuries. Bond prices rise as yield spreads tighten and decline as spreads widen.] The yield on the benchmark 10-year U.S. Treasury rose from 2.67% at the start of the period to 3.52% at period-end.

# How did the fund perform for the reporting period?

The fund returned –0.76%, outperforming the fund's primary benchmark, the George Putnam Blended Index, which returned –0.97%.

# What were some stocks that helped fund performance during the reporting period?

NVIDIA, a U.S.-based software firm, was the top equity contributor to fund performance. NVIDIA designs and sells graphics processing units [GPUs] to industries such as gaming and entertainment, automotive, computing, and robotics. The company's GPUs power everything from gaming consoles and autonomous cars to cryptocurrencies like Bitcoin.

During the period, the global semiconductor industry started to emerge from a cyclical downturn, which provided a tailwind for NVIDIA's stock. Over the long run, we believe NVIDIA will be a key beneficiary of new generative artificial intelligence [AI] workloads such as ChatGPT. NVIDIA's GPUs provide the enabling technology to power innovative AI applications. NVIDIA's stock rose as ChatGPT gained media attention following its launch in November 2022

Oracle, the world's largest database management company, was another top equity performer. Oracle's cloud-based products,

# If We expect many stocks and bonds will rebound once the Fed slows interest-rate hikes further. JJ

which include infrastructure and platform software-as-a-service offerings, have reached critical mass, in our view. Launched in 2016, Oracle's cloud-based services now generate one-third of the company's total revenues. Growth in Oracle's cloud-based revenues helped to offset a decline in the company's legacy business, which includes on-premises software and hardware. Oracle's stock price rose on the company's strengthening fundamentals.

# What were some stocks that detracted from fund performance during the reporting period?

Amazon.com, the global e-commerce retailer, was the top equity detractor from fund performance. After soaring during the pandemic, revenues from its cloud computing platform, Amazon Web Services, began to slow. Inflation and supply chain disruptions further squeezed Amazon's profit margins. Amazon reported negative free cash flows for calendar 2022, which dampened investor interest in the stock. We believe if inflation eases further, the stock will rebound.

Our decision not to own JPMorgan Chase & Co., a leading global financial services firm, modestly detracted from results. The stock performed well as investors became more risk averse. A strong financial franchise with a solid management team, JPMorgan had a valuation that was appropriately priced, in our view. The stock traded at a higher valuation than its peers and the sector. Our approach focuses on identifying differentiated insights at attractive valuations. As such, we have preferred exposure to names such as Apollo Global Management and Prudential, both of which were positive contributors during the period.

# How were derivatives used during the reporting period?

We used forward currency contracts to help hedge foreign exchange risk. We also used futures to equitize cash.

# How did the fund's bond allocations perform during the period?

The fund's bond allocation in the portfolio outperformed the Bloomberg U.S. Aggregate Bond Index by nearly 100 basis points during the period. The bond portfolio's exposure to U.S. IG corporate credit was additive to performance, led by our positioning in the financials sector. Security selection within the industrials and utilities sectors also added to results, albeit to a lesser degree. Additionally, our tactical mortgage basis positioning [which seeks to capitalize on the difference between longer-term U.S. Treasury yields and the interest rates on 30-year home mortgages] boosted returns. We strategically positioned the bond portfolio to take advantage of fluctuating mortgage

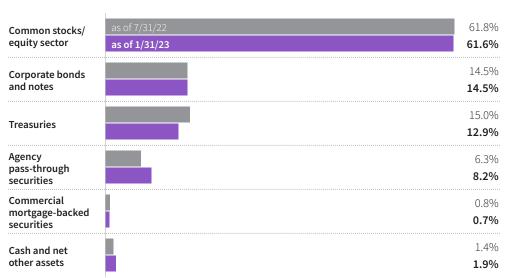

rates as they tightened or widened relative to Treasuries during the reporting period.

#### What is your outlook for bond markets?

We expect continued Treasury rate volatility this year. Given the surge of higher interest rates and those already priced into the market, we expect Treasury rates to stabilize or rally periodically if growth concerns escalate in calendar 2023.

While we see pockets of idiosyncratic opportunity, we have a cautious outlook on U.S. corporate credit with an expectation for elevated volatility. High inflation, central bank tightening, slowing growth, and geopolitical impacts on energy supplies remain considerable headwinds to both fundamentals and market technicals [supply/demand metrics], in our view. However, we believe that we may be nearing a point in the coming months where the Fed's interest-rate hiking cycle will start to wind down

# Portfolio composition comparison

This chart shows how the fund's top weightings have changed over the past six months. Allocations are shown as a percentage of the fund's net assets. Current period summary information may differ from the portfolio schedule included in the financial statements due to the inclusion of derivative securities, any interest accruals, the exclusion of as-of trades, if any, the use of different classifications of securities for presentation purposes, and rounding. Holdings and allocations may vary over time.

We believe that corporate fundamentals, while strong, have likely peaked as higher interest rates and slower growth weighed on financial conditions. We believe technicals are improving modestly as domestic flows have turned positive in 2023. However, elevated foreign exchange hedging costs remain an overhang on the market, in our view. We believe valuations are trending in neutral territory with investment-grade spreads trading near long-term averages. We believe valuations are somewhat more attractive compared with last year. Credit spreads do not reflect near-term recessionary risks, in our view.

Risks to our outlook include policy missteps from global central banks; a more severe slowdown or recession than the market anticipates; ongoing supply chain disruptions; commodity price volatility; heightened geopolitical tensions; and the impact of a surge in Covid-19 cases.

# What is your outlook for the economy and the fund?

Last year was very challenging for financial markets and all asset classes. While 2022 is behind us, we expect market volatility will continue until inflation is better understood and central banks become less hawkish.

On the positive side, commodity prices are moving off their highs, supply chains are easing, inventories of goods are piling up, and the U.S. housing market is slowing. These conditions help to de-escalate inflation, in our view. Still, we believe it will take some time before this is reflected in macroeconomic data.

Some data, including CPI, has shown a decline in the pace of inflation. Yet, inflation remains very high, and it has persisted longer than expected. In our view, the Fed seems intent on

raising interest rates and keeping them higher for longer than most investors anticipate. Whether or not the Fed will reduce rates depends on a further reduction in inflation and an increase in unemployment, in our view.

As we enter calendar 2023, we remain optimistic. Many sectors and industries that were devastated two years ago, at the start of the pandemic, are now thriving, in our view. We believe that many stocks and bonds will rebound if the Fed slows interest-rate hikes further.

For the fund, we continue to use deep fundamental research to evaluate businesses in the context of macroeconomic challenges. We invest in companies that we believe can weather macro-driven risks and will rebound as conditions shift in calendar 2023. The fund's portfolio represents our best ideas that we believe will outperform the primary benchmark over the long run.

# Thank you both for your time and insights today.

The views expressed in this report are exclusively those of Putnam Management and are subject to change. They are not meant as investment advice.

Please note that the holdings discussed in this report may not have been held by the fund for the entire period. Portfolio composition is subject to review in accordance with the fund's investment strategy and may vary in the future. Current and future portfolio holdings are subject to risk.

# Of special interest

Effective November 2022, the fund increased its quarterly distribution rate for class A shares from \$0.041 to \$0.055, as a result of higher levels of income earned by the portfolio. Similar increases were made to other share classes.

# Your fund's performance

This section shows your fund's performance, price, and distribution information for periods ended January 31, 2023, the end of the first half of its current fiscal year. In accordance with regulatory requirements for mutual funds, we also include performance information as of the most recent calendar quarter-end and expense information taken from the fund's current prospectus. Performance should always be considered in light of a fund's investment strategy. Data represent past performance. Past performance does not guarantee future results. More recent returns may be less or more than those shown. Investment return and principal value will fluctuate, and you may have a gain or a loss when you sell your shares. Performance information does not reflect any deduction for taxes a shareholder may owe on fund distributions or on the redemption of fund shares. For the most recent month-end performance, please visit the Individual Investors section at putnam.com or call Putnam at 1-800-225-1581. Class R, R5, R6, and Y shares are not available to all investors. See the Terms and definitions section in this report for definitions of the share classes offered by your fund.

### **Annualized fund performance** Total return for periods ended 1/31/23

•		, ,							
	Life of fund	10 years	5 years	3 years	1 year	6 months			
Class A (11/5/37)									
Before sales charge	8.56%	7.99%	6.24%	4.94%	-8.01%	-0.76%			
After sales charge	8.48	7.35	4.99	2.89	-13.30	-6.47			
Class B (4/27/92)									
Before CDSC	8.45	7.34	5.45	4.16	-8.72	-1.13			
After CDSC	8.45	7.34	5.13	3.26	-13.19	-5.97			
Class C (7/26/99)									
Before CDSC	8.48	7.34	5.43	4.14	-8.76	-1.15			
After CDSC	8.48	7.34	5.43	4.14	-9.65	-2.12			
Class M (12/1/94)									
Before sales charge	7.85	7.45	5.71	4.42	-8.50	-0.98			
After sales charge	7.80	7.07	4.96	3.19	-11.70	-4.44			
Class R (1/21/03)									
Net asset value	8.29	7.72	5.97	4.69	-8.24	-0.87			
Class R5 (12/2/13)									
Net asset value	8.65	8.28	6.52	5.21	-7.76	-0.57			
Class R6 (12/2/13)									
Net asset value	8.66	8.36	6.61	5.30	-7.74	-0.59			
Class Y (3/31/94)									
Net asset value	8.65	8.27	6.51	5.21	-7.78	-0.59			

Current performance may be lower or higher than the quoted past performance, which cannot guarantee future results. After-sales-charge returns for class A and M shares reflect the deduction of the maximum 5.75% and 3.50% sales charge, respectively, levied at the time of purchase. Class B share returns after contingent deferred sales charge (CDSC) reflect the applicable CDSC, which is 5% in the first year, declining over time to 1% in the sixth year, and is eliminated thereafter. Class R, R5, R6, and Y shares have no initial sales charge or CDSC. Performance for class B, C, M, R, and Y shares before their inception is derived from the historical performance of class A shares, adjusted for the applicable sales charge (or CDSC) and the higher operating expenses for such shares, except for class Y shares, for which 12b-1 fees are not applicable. Performance for class R5 and R6 shares prior to their inception is derived from the historical performance of class Y shares and has not been adjusted for the lower investor servicing fees applicable to class R5 and R6 shares; had it, returns would have been higher.

Returns for periods of less than one year are not annualized.

For a portion of the periods, the fund had expense limitations, without which returns would have been lower. Class B and C share performance reflects conversion to class A shares after eight years.

### Comparative annualized index returns For periods ended 1/31/23

	Life of fund	10 years	5 years	3 years	1 year	6 months
George Putnam Blended Index†	_*	8.48%	6.64%	5.67%	-7.68%	-0.97%
Bloomberg U.S. Aggregate Bond Index	_*	1.43	0.86	-2.35	-8.36	-2.37
S&P 500 Index	_*	12.68	9.54	9.88	-8.22	-0.44
Lipper Balanced Funds category median‡	_*	5.76	3.94	3.95	-7.19	1.04

Index and Lipper results should be compared with fund performance before sales charge, before CDSC, or at net asset value.

Returns for periods of less than one year are not annualized.

All Bloomberg indices are provided by Bloomberg Index Services Limited.

Lipper peer group median is provided by Lipper, a Refinitiv company.

- \*The fund's benchmarks, the George Putnam Blended Index and the S&P 500 Index, were introduced on 12/31/78 and 12/31/69, respectively; the Bloomberg U.S. Aggregate Bond Index was introduced on 12/31/75; and the fund's Lipper group (Balanced Funds) was introduced on 12/31/59; they all post-date the inception of the fund's class A shares.
- <sup>†</sup>The George Putnam Blended Index is an unmanaged index administered by Putnam Management, 60% of which is the S&P 500 Index and 40% of which is the Bloomberg U.S. Aggregate Bond Index.
- <sup>‡</sup>Over the 6-month, 1-year, 3-year, 5-year, and 10-year, periods ended 1/31/23, there were 437, 433, 399, 379, and 292, respectively, in this Lipper category.

### Fund price and distribution information For the six-month period ended 1/31/23

Distributions	Cla	ss A	Class B	Class C	Cla	ss M	Class R	Class R5	Class R6	Class Y
Number	2	2	1	2	2	2	2	2	2	2
Income	\$0.	096	\$0.015	\$0.019	\$0.	046	\$0.064	\$0.114	\$0.131	\$0.121
Capital gains										
Long-term gains	0.	400	0.400	0.400	0.4	400	0.400	0.400	0.400	0.400
Short-term gains	-	_	_	_	-	_	_	_	_	_
Total	\$0.	496	\$0.415	\$0.419	\$0.	446	\$0.464	\$0.514	\$0.531	\$0.521
Share value	Before sales charge	After sales charge	Net asset value	Net asset value	Before sales charge	After sales charge	Net asset value	Net asset value	Net asset value	Net asset value
7/31/22	\$21.02	\$22.30	\$20.68	\$20.75	\$20.63	\$21.38	\$20.92	\$21.31	\$21.13	\$21.12
1/31/23	20.35	21.59	20.02	20.08	19.97	20.69	20.26	20.66	20.46	20.46
Current rate (end of period)	Before sales charge	After sales charge	Net asset value	Net asset value	Before sales charge	After sales charge	Net asset value	Net asset value	Net asset value	Net asset value
Current dividend rate <sup>1</sup>	1.08%	1.02%	0.30%	0.34%	0.62%	0.60%	0.73%	1.30%	1.41%	1.31%
Current 30-day SEC yield <sup>2</sup>	N/A	1.50	0.86	0.86	N/A	1.07	1.35	1.85	1.91	1.83

The classification of distributions, if any, is an estimate. Before-sales-charge share value and current dividend rate for class A and M shares, if applicable, do not take into account any sales charge levied at the time of purchase. Aftersales-charge share value, current dividend rate, and current 30-day SEC yield, if applicable, are calculated assuming that the maximum sales charge (5.75% for class A shares and 3.50% for class M shares) was levied at the time of purchase. Final distribution information will appear on your year-end tax forms.

<sup>&</sup>lt;sup>1</sup>Most recent distribution, including any return of capital and excluding capital gains, annualized and divided by share price before or after sales charge at period-end.

<sup>&</sup>lt;sup>2</sup>Based only on investment income and calculated using the maximum offering price for each share class, in accordance with SEC guidelines.

## Annualized fund performance as of most recent calendar quarter

Total return for periods ended 12/31/22

	Life of fund	10 years	5 years	3 years	1 year	6 months
Class A (11/5/37)						
Before sales charge	8.50%	7.81%	5.85%	3.39%	-15.92%	0.79%

Class Y (3/31/94)						
Net asset value	8.60	8.09	6.12	3.67	-15.72	0.91

See the discussion following the fund performance table on page 11 for information about the calculation of fund performance.

Returns for periods of less than one year are not annualized.

# Your fund's expenses

As a mutual fund investor, you pay ongoing expenses, such as management fees, distribution fees (12b-1 fees), and other expenses. Using the following information, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You may also pay one-time transaction expenses, including sales charges (loads) and redemption fees, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial representative.

## **Expense ratios**

	Class A	Class B	Class C	Class M	Class R	Class R5	Class R6	Class Y
Total annual operating expenses for the fiscal year ended 7/31/22	0.94%	1.69%	1.69%	1.44%	1.19%	0.71%	0.61%	0.69%
Annualized expense ratio for the six-month period ended 1/31/23	0.96%	1.71%	1.71%	1.46%	1.21%	0.72%	0.62%	0.71%

Fiscal year expense information in this table is taken from the most recent prospectus, is subject to change, and may differ from that shown for the annualized expense ratio and in the financial highlights of this report.

Expenses are shown as a percentage of average net assets.

#### Expenses per \$1,000

The following table shows the expenses you would have paid on a \$1,000 investment in each class of the fund from 8/1/22 to 1/31/23. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

	Class A	Class B	Class C	Class M	Class R	Class R5	Class R6	Class Y
Expenses paid per \$1,000*†	\$4.82	\$8.57	\$8.57	\$7.32	\$6.07	\$3.62	\$3.12	\$3.57
Ending value (after expenses)	\$992.40	\$988.70	\$988.50	\$990.20	\$991.30	\$994.30	\$994.10	\$994.10

<sup>\*</sup> Expenses for each share class are calculated using the fund's annualized expense ratio for each class, which represents the ongoing expenses as a percentage of average net assets for the six months ended 1/31/23. The expense ratio may differ for each share class.

#### Estimate the expenses you paid

To estimate the ongoing expenses you paid for the six months ended 1/31/23, use the following calculation method. To find the value of your investment on 8/1/22, call Putnam at 1-800-225-1581.

How to calculate the expenses you paid								
Value of your investment on 8/1/22	•	\$1,000	X	Expenses paid per \$1,000	=	Total expenses paid		
Example Based on a \$10,000 investment	<b>Example</b> Based on a \$10,000 investment in class A shares of your fund.							
\$10,000	•	\$1,000	X	\$4.82 (see preceding table)	=	\$48.20		

## Compare expenses using the SEC's method

The Securities and Exchange Commission (SEC) has established guidelines to help investors assess fund expenses. Per these guidelines, the following table shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total costs) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

	Class A	Class B	Class C	Class M	Class R	Class R5	Class R6	Class Y
Expenses paid per \$1,000*†	\$4.89	\$8.69	\$8.69	\$7.43	\$6.16	\$3.67	\$3.16	\$3.62
Ending value (after expenses)	\$1,020.37	\$1,016.59	\$1,016.59	\$1,017.85	\$1,019.11	\$1,021.58	\$1,022.08	\$1,021.63

<sup>\*</sup> Expenses for each share class are calculated using the fund's annualized expense ratio for each class, which represents the ongoing expenses as a percentage of average net assets for the six months ended 1/31/23. The expense ratio may differ for each share class.

<sup>†</sup>Expenses are calculated by multiplying the expense ratio by the average account value for the period; then multiplying the result by the number of days in the period (184); and then dividing that result by the number of days in the year (365).

<sup>†</sup> Expenses are calculated by multiplying the expense ratio by the average account value for the six-month period; then multiplying the result by the number of days in the six-month period (184); and then dividing that result by the number of days in the year (365).

# Consider these risks before investing

The value of investments in the fund's portfolio may fall or fail to rise over extended periods of time for a variety of reasons, including general economic, political, or financial market conditions; investor sentiment and market perceptions; government actions; geopolitical events or changes; and factors related to a specific issuer, geography, industry, or sector. These and other factors may lead to increased volatility and reduced liquidity in the fund's portfolio holdings.

Growth stocks may be more susceptible to earnings disappointments, and value stocks may fail to rebound. Bond investments are subject to interest-rate risk (the risk of bond prices falling if interest rates rise) and credit risk (the risk of an issuer defaulting on interest or principal payments). Interest-rate risk is generally greater for longer-term bonds, and credit risk is generally greater for below-investment-grade bonds. Risks associated with derivatives include increased investment exposure (which may be considered leverage) and, in the case of over-the-counter instruments, the potential inability to terminate or sell derivatives positions and the potential failure of the other party to the instrument to meet its obligations.

Our investment techniques, analyses, and judgments may not produce the outcome we intend. The investments we select for the fund may not perform as well as other securities that we do not select for the fund. We, or the fund's other service providers, may experience disruptions or operating errors that could have a negative effect on the fund. You can lose money by investing in the fund.

## Terms and definitions

### Important terms

**Total return** shows how the value of the fund's shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

**Before sales charge,** or net asset value, is the price, or value, of one share of a mutual fund, without a sales charge. Before-sales-charge figures fluctuate with market conditions. They are calculated by dividing the net assets of each class of shares by the number of outstanding shares in the class.

**After sales charge** is the price of a mutual fund share plus the maximum sales charge levied at the time of purchase. After-sales-charge performance figures shown here assume the 5.75% maximum sales charge for class A shares and 3.50% for class M shares.

Contingent deferred sales charge (CDSC) is generally a charge applied at the time of the redemption of class B or C shares and assumes redemption at the end of the period. Your fund's class B CDSC declines over time from a 5% maximum during the first year to 1% during the sixth year. After the sixth year, the CDSC no longer applies. The CDSC for class C shares is 1% for one year after purchase.

**Current rate** is the annual rate of return earned from dividends or interest of an investment. Current rate is expressed as a percentage of the price of a security, fund share, or principal investment.

#### Share classes

**Class A shares** are generally subject to an initial sales charge and no CDSC (except on certain redemptions of shares bought without an initial sales charge).

**Class B shares** are closed to new investments and are only available by exchange from class B shares of another Putnam fund or through dividend and/or capital gains reinvestment. They are not subject to an initial sales charge and may be subject to a CDSC.

**Class C shares** are not subject to an initial sales charge and are subject to a CDSC only if the shares are redeemed during the first year.

**Class M shares** have a lower initial sales charge and a higher 12b-1 fee than class A shares and no CDSC.

**Class R shares** are not subject to an initial sales charge or CDSC and are only available to employer-sponsored retirement plans.

**Class R5 shares** are not subject to an initial sales charge or CDSC and carry no 12b-1 fee. They are only available to employer-sponsored retirement plans.

Class R6 shares are not subject to an initial sales charge or CDSC and carry no 12b-1 fee. They are generally only available to employer-sponsored retirement plans, corporate and institutional clients, and clients in other approved programs.

**Class Y shares** are not subject to an initial sales charge or CDSC and carry no 12b-1 fee. They are generally only available to corporate and institutional clients and clients in other approved programs.

#### **Comparative indexes**

**Bloomberg U.S. Aggregate Bond Index** is an unmanaged index of U.S. investment-grade fixed income securities.

**George Putnam Blended Index** is an unmanaged index administered by Putnam Management, 60% of which is the S&P 500® Index and 40% of which is the Bloomberg U.S. Aggregate Bond Index.

ICE BofA (Intercontinental Exchange Bank of America) U.S. 3-Month Treasury Bill Index is an unmanaged index that seeks to measure the performance of U.S. Treasury bills available in the marketplace.

# **S&P 500® Index** is an unmanaged index of common stock performance.

Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You cannot invest directly in an index.

BLOOMBERG® is a trademark and service mark of Bloomberg Finance L.P. and its affiliates (collectively "Bloomberg"). Bloomberg or Bloomberg's licensors own all proprietary rights in the Bloomberg Indices. Neither Bloomberg nor Bloomberg's licensors approve or endorse this material, or guarantee the accuracy or completeness of any information herein, or make any warranty, express or implied, as to the results to be obtained therefrom, and to the maximum extent allowed by law, neither shall have any liability or responsibility for injury or damages arising in connection therewith.

ICE Data Indices, LLC ("ICE BofA"), used with permission. ICE BofA permits use of the ICE BofA indices and related data on an "as is" basis; makes no warranties regarding

same; does not guarantee the suitability, quality, accuracy, timeliness, and/or completeness of the ICE BofA indices or any data included in, related to, or derived therefrom; assumes no liability in connection with the use of the foregoing; and does not sponsor, endorse, or recommend Putnam Investments, or any of its products or services.

**Lipper,** a Refinitiv company, is a third-party industry-ranking entity that ranks mutual funds. Its rankings do not reflect sales charges. Lipper rankings are based on total return at net asset value relative to other funds that have similar current investment styles or objectives as determined by Lipper. Lipper may change a fund's category assignment at its discretion. Lipper category medians reflect performance trends for funds within a category.

## Other information for shareholders

# Important notice regarding delivery of shareholder documents

In accordance with Securities and Exchange Commission (SEC) regulations, Putnam sends a single notice of internet availability, or a single printed copy, of annual and semiannual shareholder reports, prospectuses, and proxy statements to Putnam shareholders who share the same address, unless a shareholder requests otherwise. If you prefer to receive your own copy of these documents, please call Putnam at 1-800-225-1581, and Putnam will begin sending individual copies within 30 days.

#### **Proxy voting**

Putnam is committed to managing our mutual funds in the best interests of our shareholders. The Putnam funds' proxy voting guidelines and procedures, as well as information regarding how your fund voted proxies relating to portfolio securities during the 12-month period ended June 30, 2022, are available in the Individual Investors section of putnam.com and on the SEC's website, www.sec.gov. If you have questions about finding forms on the SEC's website, you may call the SEC at 1-800-SEC-0330. You may also obtain the Putnam funds' proxy voting guidelines and procedures at no charge by calling Putnam's Shareholder Services at 1-800-225-1581.

### Fund portfolio holdings

The fund will file a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT within 60 days of the end of such fiscal quarter. Shareholders may obtain the fund's Form N-PORT on the SEC's website at www.sec.gov.

Prior to its use of Form N-PORT, the fund filed its complete schedule of its portfolio holdings with the SEC on Form N-Q, which is available online at www.sec.gov.

### Trustee and employee fund ownership

Putnam employees and members of the Board of Trustees place their faith, confidence, and, most importantly, investment dollars in Putnam mutual funds. As of January 31, 2023, Putnam employees had approximately \$478,000,000 and the Trustees had approximately \$64,000,000 invested in Putnam mutual funds. These amounts include investments by the Trustees' and employees' immediate family members as well as investments through retirement and deferred compensation plans.

## **Financial statements**

These sections of the report, as well as the accompanying Notes, constitute the fund's financial statements.

**The fund's portfolio** lists all the fund's investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

Statement of assets and liabilities shows how the fund's net assets and share price are determined. All investment and non-investment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share, which is calculated separately for each class of shares. (For funds with preferred shares, the amount subtracted from total assets includes the liquidation preference of preferred shares.)

**Statement of operations** shows the fund's net investment gain or loss. This is done by first adding up all the fund's earnings — from dividends and interest income — and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings — as well as any unrealized gains or losses over the period — is added to

or subtracted from the net investment result to determine the fund's net gain or loss for the fiscal period.

Statement of changes in net assets shows how the fund's net assets were affected by the fund's net investment gain or loss, by distributions to shareholders, and by changes in the number of the fund's shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned. Dividend sources are estimated at the time of declaration. Actual results may vary. Any non-taxable return of capital cannot be determined until final tax calculations are completed after the end of the fund's fiscal period.

**Financial highlights** provide an overview of the fund's investment results, per-share distributions, expense ratios, net investment income ratios, and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semiannual report, the highlights table also includes the current reporting period.

### Notes to the fund's portfolio

Unless noted otherwise, the notes to the fund's portfolio are for the close of the fund's reporting period, which ran from August 1, 2022 through January 31, 2023 (the reporting period). Within the following notes to the portfolio, references to "Putnam Management" represent Putnam Investment Management, LLC, the fund's manager, an indirect wholly-owned subsidiary of Putnam Investments, LLC and references to "ASC 820" represent Accounting Standards Codification 820 Fair Value Measurements and Disclosures

- \* Percentages indicated are based on net assets of \$1,646,414,466.
- † This security is non-income-producing.
- # This security, in part or in entirety, was pledged and segregated with the broker to cover margin requirements for futures contracts at the close of the reporting period. Collateral at period end totaled \$914,703 and is included in Investments in securities on the Statement of assets and liabilities (Notes 1 and 8).
- △ This security, in part or in entirety, was pledged and segregated with the custodian for collateral on certain derivative contracts at the close of the reporting period. Collateral at period end totaled \$656,087 and is included in Investments in securities on the Statement of assets and liabilities (Notes 1 and 8).
- d Affiliated company. See Notes 1 and 5 to the financial statements regarding securities lending. The rate quoted in the security description is the annualized 7-day yield of the fund at the close of the reporting period.
- L Affiliated company (Note 5). The rate quoted in the security description is the annualized 7-day yield of the fund at the close of the reporting period.
- P This security was pledged, or purchased with cash that was pledged, to the fund for collateral on certain derivative contracts and TBA commitments. The rate quoted in the security description is the annualized 7-day yield of the fund at the close of the reporting period.
- R Real Estate Investment Trust.
- s Security on loan, in part or in entirety, at the close of the reporting period (Note 1).
- w The rate shown represents the weighted average coupon associated with the underlying mortgage pools. Rates may be subject to a cap or floor.

Unless otherwise noted, the rates quoted in Short-term investments security descriptions represent the weighted average yield to maturity.

Debt obligations are considered secured unless otherwise indicated.

 $144 \text{A} \, \text{after} \, \text{the name} \, \text{of an issuer} \, \text{represents securities} \, \text{exempt from registration under Rule} \, 144 \text{A} \, \text{of the Securities} \, \text{Act} \, \text{where} \, \text{consists} \, \text{cons$ of 1933, as amended. These securities may be resold in transactions exempt from registration, normally to qualified a continuous cinstitutional buyers.

See Note 1 to the financial statements regarding TBA commitments.

The dates shown on debt obligations are the original maturity dates.

ASC 820 establishes a three-level hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of the fund's investments. The three levels are defined as follows:

Level 1: Valuations based on quoted prices for identical securities in active markets.

 $Level\ 2: Valuations\ based\ on\ quoted\ prices\ in\ markets\ that\ are\ not\ active\ or\ for\ which\ all\ significant\ inputs\ are\ observable,\ either\ directly\ or\ indirectly.$ 

 $Level\ 3: Valuations\ based\ on\ inputs\ that\ are\ unobservable\ and\ significant\ to\ the\ fair\ value\ measurement.$ 

The following is a summary of the inputs used to value the fund's net assets as of the close of the reporting period:

### Valuation inputs

Investments in securities:	Level 1	Level 2	Level 3
Common stocks*:

nvestment in securities, at value, including \$12,230,515 of securities on loan (Notes 1 and 8)	:
Unaffiliated issuers (identified cost \$1,438,922,509)	\$1,609,593,90
Affiliated issuers (identified cost \$51,629,690) (Notes 1 and 5)	51,629,69
Cash	25,40
Foreign currency (cost \$458) (Note 1)	46
Dividends, interest and other receivables	5,658,99
Receivable for shares of the fund sold	1,492,32
Receivable for investments sold	6,360,19
Receivable for variation margin on futures contracts (Note 1)	166,75
Unrealized appreciation on forward currency contracts (Note 1)	23,17
Prepaid assets	81,84
Total assets	1,675,032,73
LIABILITIES	
Payable for investments purchased	4,823,07
Payable for purchases of TBA securities (Note 1)	7,418,93
Payable for shares of the fund repurchased	1,004,78
Payable for compensation of Manager (Note 2)	716,43
Payable for custodian fees (Note 2)	16,32
Payable for investor servicing fees (Note 2)	356,78
Payable for Trustee compensation and expenses (Note 2)	381,54
Payable for administrative services (Note 2)	3,11
Payable for distribution fees (Note 2)	365,70
Collateral on certain derivative contracts and TBA commitments, at value (Notes 1 and 8)	131,00
Collateral on securities loaned, at value (Note 1)	12,148,15
Unrealized depreciation on forward currency contracts (Note 1)	1,087,40
Other accrued expenses	165,01
Total liabilities	28,618,27
	\$1,646,414,46

REPRESENTED BY	
Paid-in capital (Unlimited shares authorized) (Notes 1 and 4)	\$1,524,149,950
Total distributable earnings (Note 1)	122,264,516
Total — Representing net assets applicable to capital shares outstanding	\$1.646.414.466

(Continued on next page)

# Statement of assets and liabilities cont.

COMPUTATION OF NET ASSET VALUE AND OFFERING PRICE	
Net asset value and redemption price per class A share	¢20.25
(\$1,171,252,953 divided by 57,559,297 shares)	\$20.35
Offering price per class A share (100/94.25 of \$20.35)*	\$21.59
Net asset value and offering price per class B share (\$5,152,527 divided by 257,386 shares)**	\$20.02
Net asset value and offering price per class C share (\$102,648,562 divided by 5,111,066 shares)**	\$20.08
Net asset value and redemption price per class M share	
(\$49,158,251 divided by 2,461,663 shares)	\$19.97
Offering price per class M share (100/96.50 of \$19.97)*	\$20.69
Net asset value, offering price and redemption price per class R share	
(\$1,127,088 divided by 55,644 shares)	\$20.26
Net asset value, offering price and redemption price per class R5 share	
(\$10,028 divided by 485 shares) <sup>†</sup>	\$20.66
Net asset value, offering price and redemption price per class R6 share	
(\$77,223,533 divided by 3,773,873 shares)	\$20.46
Net asset value, offering price and redemption price per class Y share	
(\$239,841,524 divided by 11,724,983 shares)	\$20.46

 $<sup>^{\</sup>star}$ On single retail sales of less than \$50,000. On sales of \$50,000 or more the offering price is reduced.

<sup>\*\*</sup>Redemption price per share is equal to net asset value less any applicable contingent deferred sales charge.

<sup>†</sup>Net asset value may not recalculate due to rounding of fractional shares.

# **Notes to financial statements** 1/31/23 (Unaudited)

Within the following Notes to financial statements, references to "State Street" represent State Street Bank and Trust Company, references to "the SEC" represent the Securities and Exchange Commission, references to "Putnam Management" represent Putnam Investment Management, LLC, the fund's manager, an indirect whollyowned subsidiary of Putnam Investments, LLC and references to "OTC", if any, represent over-the-counter. Unless otherwise noted, the "reporting period" represents the period from August 1, 2022 through January 31, 2023.

George Putnam Balanced Fund (the fund) is a Massachusetts business trust, which is registered under the Investment Company Act of 1940, as amended, as a diversified open-end management investment company. The goal of the fund is to seek to provide a balanced investment composed of a well-diversified portfolio of stocks and bonds which produce both capital growth and current income. The fund invests mainly in a combination of bonds and common stocks (growth or value stocks or both) of large U.S. companies, with a greater focus on common stocks. For example, Putnam Management may purchase stocks of companies with stock prices that reflect a value lower than that which Putnam Management places on the company. Putnam Management may also consider other factors that Putnam Management believes will cause the stock price to rise. The fund buys bonds of governments and private companies that are mostly investment-grade in quality with intermediate- to long-term maturities (three years or longer). Putnam Management may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell equity investments, and, among other factors, credit, interest rate and prepayment risks, as well as general market conditions, when deciding whether to buy or sell fixed-income investments. The fund may also use derivatives, such as futures, options, warrants and swap contracts, for both hedging and non-hedging purposes.

The fund offers the following share classes. The expenses for each class of shares may differ based on the distribution and investor servicing fees of each class, which are identified in Note 2.

Share class	Sales charge	Contingent deferred sales charge	Conversion feature
Class A	Up to 5.75%	1.00% on certain redemptions of shares bought with no initial sales charge	None
Class B*	None	5.00% phased out over six years	Converts to class A shares after 8 years
Class C	None	1.00% eliminated after one year	Converts to class A shares after 8 years
Class M†	Up to 3.50%	None	None
Class R†	None	None	None
Class R5†	None	None	None
Class R6 <sup>†</sup>	None	None	None
Class Y <sup>†</sup>	None	None	None

<sup>\*</sup>Purchases of class B shares are closed to new and existing investors except by exchange from class B shares of another Putnam fund or through dividend and/or capital gains reinvestment.

In the normal course of business, the fund enters into contracts that may include agreements to indemnify another party under given circumstances. The fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be, but have not yet been, made against the fund. However, the fund's management team expects the risk of material loss to be remote.

The fund has entered into contractual arrangements with an investment adviser, administrator, distributor, share-holder servicing agent and custodian, who each provide services to the fund. Unless expressly stated otherwise, shareholders are not parties to, or intended beneficiaries of these contractual arrangements, and these contractual arrangements are not intended to create any shareholder right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the fund.

Under the fund's Amended and Restated Agreement and Declaration of Trust, any claims asserted against or on behalf of the Putnam Funds, including claims against Trustees and Officers, must be brought in state and federal courts located within the Commonwealth of Massachusetts.

<sup>†</sup> Not available to all investors.

### Note 1: Significant accounting policies

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations. Actual results could differ from those estimates. Subsequent events after the Statement of assets and liabilities date through the date that the financial statements were issued have been evaluated in the preparation of the financial statements.

Investment income, realized and unrealized gains and losses and expenses of the fund are borne pro-rata based on the relative net assets of each class to the total net assets of the fund, except that each class bears expenses unique to that class (including the distribution fees applicable to such classes). Each class votes as a class only with respect to its own distribution plan or other matters on which a class vote is required by law or determined by the Trustees. If the fund were liquidated, shares of each class would receive their pro-rata share of the net assets of the fund. In addition, the Trustees declare separate dividends on each class of shares.

**Security valuation** Portfolio securities and other investments are valued using policies and procedures adopted by the Board of Trustees. The Trustees have formed a Pricing Committee to oversee the implementation of these procedures and have delegated responsibility for valuing the fund's assets in accordance with these procedures to Putnam Management. Putnam Management has established an internal Valuation Committee that is responsible for making fair value determinations, evaluating the effectiveness of the pricing policies of the fund and reporting to the Pricing Committee.

Investments for which market quotations are readily available are valued at the last reported sales price on their principal exchange, or official closing price for certain markets, and are classified as Level 1 securities under Accounting Standards Codification 820 Fair Value Measurements and Disclosures (ASC 820). If no sales are reported, as in the case of some securities that are traded OTC, a security is valued at its last reported bid price and is generally categorized as a Level 2 security.

Investments in open-end investment companies (excluding exchange-traded funds), if any, which can be classified as Level 1 or Level 2 securities, are valued based on their net asset value. The net asset value of such investment companies equals the total value of their assets less their liabilities and divided by the number of their outstanding shares.

Market quotations are not considered to be readily available for certain debt obligations (including short-term investments with remaining maturities of 60 days or less) and other investments; such investments are valued on the basis of valuations furnished by an independent pricing service approved by the Trustees or dealers selected by Putnam Management. Such services or dealers determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and various relationships, generally recognized by institutional traders, between securities (which consider such factors as security prices, yields, maturities and ratings). These securities will generally be categorized as Level 2.

Many securities markets and exchanges outside the U.S. close prior to the scheduled close of the New York Stock Exchange and therefore the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the scheduled close of the New York Stock Exchange. Accordingly, on certain days, the fund will fair value certain foreign equity securities taking into account multiple factors including movements in the U.S. securities markets, currency valuations and comparisons to the valuation of American Depository Receipts, exchange-traded funds and futures contracts. The foreign equity securities, which would generally be classified as Level 1 securities, will be transferred to Level 2 of the fair value hierarchy when they are valued at fair value. The number of days on which fair value prices will be used will depend on market activity and it is possible that fair value prices will be used by the fund to a significant extent. At the close of the reporting period, fair value pricing was used for certain foreign securities in the portfolio. Securities quoted in foreign currencies, if any, are translated into U.S. dollars at the current exchange rate.

To the extent a pricing service or dealer is unable to value a security or provides a valuation that Putnam Management does not believe accurately reflects the security's fair value, the security will be valued at fair value by Putnam Management in accordance with policies and procedures approved by the Trustees. Certain investments, including certain restricted and illiquid securities and derivatives, are also valued at fair value following procedures approved by the Trustees. These valuations consider such factors as significant market or specific security events such as interest rate or credit quality changes, various relationships with other securities, discount rates, U.S. Treasury, U.S. swap and credit yields, index levels, convexity exposures, recovery rates, sales and other

multiples and resale restrictions. These securities are classified as Level 2 or as Level 3 depending on the priority of the significant inputs.

To assess the continuing appropriateness of fair valuations, the Valuation Committee reviews and affirms the reasonableness of such valuations on a regular basis after considering all relevant information that is reasonably available. Such valuations and procedures are reviewed periodically by the Trustees. Certain securities may be valued on the basis of a price provided by a single source. The fair value of securities is generally determined as the amount that the fund could reasonably expect to realize from an orderly disposition of such securities over a reasonable period of time. By its nature, a fair value price is a good faith estimate of the value of a security in a current sale and does not reflect an actual market price, which may be different by a material amount.

**Security transactions and related investment income** Security transactions are recorded on the trade date (the date the order to buy or sell is executed). Gains or losses on securities sold are determined on the identified cost basis.

Interest income, net of any applicable withholding taxes, if any, is recorded on the accrual basis. Amortization and accretion of premiums and discounts on debt securities, if any, is recorded on the accrual basis. Dividend income, net of any applicable withholding taxes, is recognized on the ex-dividend date except that certain dividends from foreign securities, if any, are recognized as soon as the fund is informed of the ex-dividend date. Non-cash dividends, if any, are recorded at the fair value of the securities received. Dividends representing a return of capital or capital gains, if any, are reflected as a reduction of cost and/or as a realized gain.

Securities purchased or sold on a delayed delivery basis may be settled at a future date beyond customary settlement time; interest income is accrued based on the terms of the securities. Losses may arise due to changes in the fair value of the underlying securities or if the counterparty does not perform under the contract.

**Stripped securities** The fund may invest in stripped securities which represent a participation in securities that may be structured in classes with rights to receive different portions of the interest and principal. Interest-only securities receive all of the interest and principal-only securities receive all of the principal. If the interest-only securities experience greater than anticipated prepayments of principal, the fund may fail to recoup fully its initial investment in these securities. Conversely, principal-only securities increase in value if prepayments are greater than anticipated and decline if prepayments are slower than anticipated. The fair value of these securities is highly sensitive to changes in interest rates.

Foreign currency translation The accounting records of the fund are maintained in U.S. dollars. The fair value of foreign securities, currency holdings, and other assets and liabilities is recorded in the books and records of the fund after translation to U.S. dollars based on the exchange rates on that day. The cost of each security is determined using historical exchange rates. Income and withholding taxes are translated at prevailing exchange rates when earned or incurred. The fund does not isolate that portion of realized or unrealized gains or losses resulting from changes in the foreign exchange rate on investments from fluctuations arising from changes in the market prices of the securities. Such gains and losses are included with the net realized and unrealized gain or loss on investments. Net realized gains and losses on foreign currency transactions represent net realized exchange gains or losses on disposition of foreign currencies, currency gains and losses realized between the trade and settlement dates on securities transactions and the difference between the amount of investment income and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized appreciation and depreciation of assets and liabilities in foreign currencies arise from changes in the value of assets and liabilities other than investments at the period end, resulting from changes in the exchange rate.

Futures contracts The fund uses futures contracts to equitize cash.

The potential risk to the fund is that the change in value of futures contracts may not correspond to the change in value of the hedged instruments. In addition, losses may arise from changes in the value of the underlying instruments, if there is an illiquid secondary market for the contracts, if interest or exchange rates move unexpectedly or if the counterparty to the contract is unable to perform. With futures, there is minimal counterparty credit risk to the fund since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default. Risks may exceed amounts recognized on the Statement of assets and liabilities. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. The fund and the broker agree to exchange an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin."

Futures contracts outstanding at period end, if any, are listed after the fund's portfolio.

**Forward currency contracts** The fund buys and sells forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to hedge foreign exchange risk.

The U.S. dollar value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The fair value of the contract will fluctuate with changes in currency exchange rates. The contract is marked to market daily and the change in fair value is recorded as an unrealized gain or loss. The fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed when the contract matures or by delivery of the currency. The fund could be exposed to risk if the value of the currency changes unfavorably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position. Risks may exceed amounts recognized on the Statement of assets and liabilities.

Forward currency contracts outstanding at period end, if any, are listed after the fund's portfolio.

**TBA commitments** The fund may enter into TBA (to be announced) commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price and par amount have been established, the actual securities have not been specified. However, it is anticipated that the amount of the commitments will not significantly differ from the principal amount. The fund holds, and maintains until settlement date, cash or high-grade debt obligations in an amount sufficient to meet the purchase price, or the fund may enter into offsetting contracts for the forward sale of other securities it owns. Income on the securities will not be earned until settlement date.

The fund may also enter into TBA sale commitments to hedge its portfolio positions, to sell mortgage-backed securities it owns under delayed delivery arrangements or to take a short position in mortgage-backed securities. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, either equivalent deliverable securities or an offsetting TBA purchase commitment deliverable on or before the sale commitment date are held as "cover" for the transaction, or other liquid assets in an amount equal to the notional value of the TBA sale commitment are segregated. If the TBA sale commitment is closed through the acquisition of an offsetting TBA purchase commitment, the fund realizes a gain or loss. If the fund delivers securities under the commitment, the fund realizes a gain or a loss from the sale of the securities based upon the unit price established at the date the commitment was entered into.

TBA commitments, which are accounted for as purchase and sale transactions, may be considered securities themselves, and involve a risk of loss due to changes in the value of the security prior to the settlement date as well as the risk that the counterparty to the transaction will not perform its obligations. Counterparty risk is mitigated by having a master agreement between the fund and the counterparty.

Unsettled TBA commitments are valued at their fair value according to the procedures described under "Security valuation" above. The contract is marked to market daily and the change in fair value is recorded by the fund as an unrealized gain or loss. Based on market circumstances, Putnam Management will determine whether to take delivery of the underlying securities or to dispose of the TBA commitments prior to settlement.

TBA purchase commitments outstanding at period end, if any, are listed within the fund's portfolio and TBA sale commitments outstanding at period end, if any, are listed after the fund's portfolio.

Master agreements The fund is a party to ISDA (International Swaps and Derivatives Association, Inc.) Master Agreements that govern OTC derivative and foreign exchange contracts and Master Securities Forward Transaction Agreements that govern transactions involving mortgage-backed and other asset-backed securities that may result in delayed delivery (Master Agreements) with certain counterparties entered into from time to time. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. With respect to certain counterparties, in accordance with the terms of the Master Agreements, collateral pledged to the fund is held in a segregated account by the fund's custodian and, with respect to those amounts which can be sold or repledged, are presented in the fund's portfolio.

Collateral pledged by the fund is segregated by the fund's custodian and identified in the fund's portfolio. Collateral can be in the form of cash or debt securities issued by the U.S. Government or related agencies or other securities as agreed to by the fund and the applicable counterparty. Collateral requirements are determined based on the fund's net position with each counterparty.

With respect to ISDA Master Agreements, termination events applicable to the fund may occur upon a decline in the fund's net assets below a specified threshold over a certain period of time. Termination events applicable to counterparties may occur upon a decline in the counterparty's long-term or short-term credit ratings below a specified level. In each case, upon occurrence, the other party may elect to terminate early and cause settlement of all derivative and foreign exchange contracts outstanding, including the payment of any losses and costs resulting from such early termination, as reasonably determined by the terminating party. Any decision by one or more of the fund's counterparties to elect early termination could impact the fund's future derivative activity.

At the close of the reporting period, the fund had a net liability position of \$1,064,235 on open derivative contracts subject to the Master Agreements. Collateral pledged by the fund at period end for these agreements totaled \$656,087 and may include amounts related to unsettled agreements.

Securities lending The fund may lend securities, through its agent, to qualified borrowers in order to earn additional income. The loans are collateralized by cash in an amount at least equal to the fair value of the securities loaned. The fair value of securities loaned is determined daily and any additional required collateral is allocated to the fund on the next business day. The remaining maturities of the securities lending transactions are considered overnight and continuous. The risk of borrower default will be borne by the fund's agent; the fund will bear the risk of loss with respect to the investment of the cash collateral. Income from securities lending, net of expenses, is included in investment income on the Statement of operations. Cash collateral is invested in Putnam Cash Collateral Pool, LLC, a limited liability company managed by an affiliate of Putnam Management. Investments in Putnam Cash Collateral Pool, LLC are valued at its closing net asset value each business day. There are no management fees charged to Putnam Cash Collateral Pool, LLC. At the close of the reporting period, the fund received cash collateral of \$12,148,151 and the value of securities loaned amounted to \$12,230,515.

**Interfund lending** The fund, along with other Putnam funds, may participate in an interfund lending program pursuant to an exemptive order issued by the SEC. This program allows the fund to borrow from or lend to other Putnam funds that permit such transactions. Interfund lending transactions are subject to each fund's investment policies and borrowing and lending limits. Interest earned or paid on the interfund lending transaction will be based on the average of certain current market rates. During the reporting period, the fund did not utilize the program.

**Lines of credit** The fund participates, along with other Putnam funds, in a \$100 million (\$317.5 million prior to October 14, 2022) unsecured committed line of credit and a \$235.5 million unsecured uncommitted line of credit, both provided by State Street. Borrowings may be made for temporary or emergency purposes, including the funding of shareholder redemption requests and trade settlements. Interest is charged to the fund based on the fund's borrowing at a rate equal to 1.25% plus the higher of (1) the Federal Funds rate and (2) the Overnight Bank Funding Rate for the committed line of credit and 1.30% plus the higher of (1) the Federal Funds rate and (2) the Overnight Bank Funding Rate for the uncommitted line of credit. A closing fee equal to 0.04% of the committed line of credit and 0.04% of the uncommitted line of credit has been paid by the participating funds. In addition, a commitment fee of 0.21% per annum on any unutilized portion of the committed line of credit is allocated to the participating funds based on their relative net assets and paid quarterly. During the reporting period, the fund had no borrowings against these arrangements.

**Federal taxes** It is the policy of the fund to distribute all of its taxable income within the prescribed time period and otherwise comply with the provisions of the Internal Revenue Code of 1986, as amended (the Code), applicable to regulated investment companies. It is also the intention of the fund to distribute an amount sufficient to avoid imposition of any excise tax under Section 4982 of the Code.

The fund is subject to the provisions of Accounting Standards Codification 740 *Income Taxes* (ASC 740). ASC 740 sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The fund did not have a liability to record for any unrecognized tax benefits in the accompanying financial statements. No provision has been made for federal taxes on income, capital gains or unrealized appreciation on securities held nor for excise tax on income and capital gains. Each of the fund's federal tax returns for the prior three fiscal years remains subject to examination by the Internal Revenue Service.

The fund may also be subject to taxes imposed by governments of countries in which it invests. Such taxes are generally based on either income or gains earned or repatriated. The fund accrues and applies such taxes to net investment income, net realized gains and net unrealized gains as income and/or capital gains are earned. In some cases, the fund may be entitled to reclaim all or a portion of such taxes, and such reclaim amounts, if any, are reflected as an asset on the fund's books. In many cases, however, the fund may not receive such amounts for an extended period of time, depending on the country of investment.

Tax cost of investments includes adjustments to net unrealized appreciation (depreciation) which may not necessarily be final tax cost basis adjustments, but closely approximate the tax basis unrealized gains and losses that may be realized and distributed to shareholders. The aggregate identified cost on a tax basis is \$1,492,108,563, resulting in gross unrealized appreciation and depreciation of \$280,142,478 and \$111,519,431, respectively, or net unrealized appreciation of \$168,623,047.

**Distributions to shareholders** Distributions to shareholders from net investment income are recorded by the fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid at least annually. The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Dividend sources are estimated at the time of declaration. Actual results may vary. Any non-taxable return of capital cannot be determined until final tax calculations are completed after the end of the fund's fiscal year. Reclassifications are made to the fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations.

### Note 2: Management fee, administrative services and other transactions

The fund pays Putnam Management a management fee (based on the fund's average net assets and computed and paid monthly) at annual rates that may vary based on the average of the aggregate net assets of all open-end mutual funds sponsored by Putnam Management (excluding net assets of funds that are invested in, or that are invested in by, other Putnam funds to the extent necessary to avoid "double counting" of those assets). Such annual rates may vary as follows:

0.680%	of the first \$5 billion,	0.480%	of the next \$50 billion,
0.630%	of the next \$5 billion,	0.460%	of the next \$50 billion,
0.580%	of the next \$10 billion,	0.450%	of the next \$100 billion and
0.530%	of the next \$10 billion.	0.445%	of any excess thereafter.

For the reporting period, the management fee represented an effective rate (excluding the impact from any expense waivers in effect) of 0.262% of the fund's average net assets.

Putnam Management has contractually agreed, through November 30, 2023, to waive fees and/or reimburse the fund's expenses to the extent necessary to limit the cumulative expenses of the fund, exclusive of brokerage, interest, taxes, investment-related expenses, extraordinary expenses, acquired fund fees and expenses and payments under the fund's investor servicing contract, investment management contract and distribution plans, on a fiscal year-to-date basis to an annual rate of 0.20% of the fund's average net assets over such fiscal year-to-date period. During the reporting period, the fund's expenses were not reduced as a result of this limit.

Putnam Investments Limited (PIL), an affiliate of Putnam Management, is authorized by the Trustees to manage a separate portion of the assets of the fund as determined by Putnam Management from time to time. PIL did not manage any portion of the assets of the fund during the reporting period. If Putnam Management were to engage the services of PIL, Putnam Management would pay a quarterly sub-management fee to PIL for its services at an annual rate of 0.25% of the average net assets of the equity and asset allocation portion of the fund managed by PIL and 0.20% of the average net assets of the fixed-income portion of the fund managed by PIL.

The fund reimburses Putnam Management an allocated amount for the compensation and related expenses of certain officers of the fund and their staff who provide administrative services to the fund. The aggregate amount of all such reimbursements is determined annually by the Trustees.

Custodial functions for the fund's assets are provided by State Street. Custody fees are based on the fund's asset level, the number of its security holdings and transaction volumes.

Putnam Investor Services, Inc., an affiliate of Putnam Management, provides investor servicing agent functions to the fund. Putnam Investor Services, Inc. received fees for investor servicing for class A, class B, class C, class M, class R and class Y shares that included (1) a per account fee for each direct and underlying non-defined contribution account (retail account) of the fund; (2) a specified rate of the fund's assets attributable to defined contribution plan accounts; and (3) a specified rate based on the average net assets in retail accounts. Putnam Investor Services, Inc. has agreed that the aggregate investor servicing fees for each fund's retail and defined contribution accounts for these share classes will not exceed an annual rate of 0.25% of the fund's average assets attributable to such accounts.

Class R5 shares paid a monthly fee based on the average net assets of class R5 shares at an annual rate of 0.15%.

Class R6 shares paid a monthly fee based on the average net assets of class R6 shares at an annual rate of 0.05%.

During the reporting period, the expenses for each class of shares related to investor servicing fees were as follows:

		Total	\$1,083,046
Class M	32,801	Class Y	163,084
Class C	72,572	Class R6	16,852
Class B	3,915	Class R5	8
Class A	\$792,926	Class R	888

The fund has entered into expense offset arrangements with Putnam Investor Services, Inc. and State Street whereby Putnam Investor Services, Inc.'s and State Street's fees are reduced by credits allowed on cash balances. For the reporting period, the fund's expenses were reduced by \$8,342 under the expense offset arrangements.

Each Independent Trustee of the fund receives an annual Trustee fee, of which \$1,427, as a quarterly retainer, has been allocated to the fund, and an additional fee for each Trustees meeting attended. Trustees also are reimbursed for expenses they incur relating to their services as Trustees.

The fund has adopted a Trustee Fee Deferral Plan (the Deferral Plan) which allows the Trustees to defer the receipt of all or a portion of Trustees fees payable on or after July 1, 1995. The deferred fees remain invested in certain Putnam funds until distribution in accordance with the Deferral Plan.

The fund has adopted an unfunded noncontributory defined benefit pension plan (the Pension Plan) covering all Trustees of the fund who have served as a Trustee for at least five years and were first elected prior to 2004. Benefits under the Pension Plan are equal to 50% of the Trustee's average annual attendance and retainer fees for the three years ended December 31, 2005. The retirement benefit is payable during a Trustee's lifetime, beginning the year following retirement, for the number of years of service through December 31, 2006. Pension expense for the fund is included in Trustee compensation and expenses in the Statement of operations. Accrued pension liability is included in Payable for Trustee compensation and expenses in the Statement of assets and liabilities. The Trustees have terminated the Pension Plan with respect to any Trustee first elected after 2003.

The fund has adopted distribution plans (the Plans) with respect to the following share classes pursuant to Rule 12b–1 under the Investment Company Act of 1940. The purpose of the Plans is to compensate Putnam Retail Management Limited Partnership, an indirect wholly-owned subsidiary of Putnam Investments, LLC, for services provided and expenses incurred in distributing shares of the fund. The Plans provide payments by the fund to Putnam Retail Management Limited Partnership at an annual rate of up to the following amounts (Maximum %) of the average net assets attributable to each class. The Trustees have approved payment by the fund at the following annual rate (Approved %) of the average net assets attributable to each class. During the reporting period, the class-specific expenses related to distribution fees were as follows:

	Maximum %	Approved %	Amount
Class A	0.35%	0.25%	\$1,452,670
Class B	1.00%	1.00%	28,692
Class C	1.00%	1.00%	531,630
Class M	1.00%	0.75%	180,205
Class R	1.00%	0.50%	3,261
Total			\$2,196,458

For the reporting period, Putnam Retail Management Limited Partnership, acting as underwriter, received net commissions of \$63,303 and no monies from the sale of class A and class M shares, respectively, and received \$48 and \$534 in contingent deferred sales charges from redemptions of class B and class C shares, respectively.

A deferred sales charge of up to 1.00% is assessed on certain redemptions of class A shares. For the reporting period, Putnam Retail Management Limited Partnership, acting as underwriter, received \$69 on class A redemptions.

#### Note 3: Purchases and sales of securities

During the reporting period, the cost of purchases and the proceeds from sales, excluding short-term investments, were as follows:

	Cost of purchases	Proceeds from sales
Investments in securities, including TBA commitments (Long-term)	\$378,487,380	\$401,427,256
U.S. government securities (Long-term)	22,892,624	58,821,170
Total	\$401,380,004	\$460,248,426

The fund may purchase or sell investments from or to other Putnam funds in the ordinary course of business, which can reduce the fund's transaction costs, at prices determined in accordance with SEC requirements and policies approved by the Trustees. During the reporting period, purchases or sales of long-term securities from or to other Putnam funds, if any, did not represent more than 5% of the fund's total cost of purchases and/or total proceeds from sales.

# Note 4: Capital shares

At the close of the reporting period, there were an unlimited number of shares of beneficial interest authorized. Transactions, including, if applicable, direct exchanges pursuant to share conversions, in capital shares were as follows:

	SIX MONTHS ENDED 1/31/23		YEAR ENDE	D 7/31/22
Class A	Shares	Amount	Shares	Amount
Shares sold	2,041,635	\$40,420,506	4,801,580	\$111,126,092
Shares issued in connection with reinvestment of distributions	1,370,061	27,164,295	4,236,158	98,997,950

At the close of the reporting period, Putnam Investments, LLC owned 485 class R5 shares of the fund (100% of class R5 shares outstanding), valued at \$10,028.

#### Note 5: Affiliated transactions

Transactions during the reporting period with any company which is under common ownership or control were as follows:

Name of affiliate	Fair value as of 7/31/22	Purchase cost	Sale proceeds	Investment income	Shares outstanding and fair value as of 1/31/23
Short-term investments	<b>i</b>				
Putnam Cash Collateral Pool, LLC*	\$17,251,575	\$61,837,549	\$66,940,973	\$251,831	\$12,148,151
Putnam Short Term Investment Fund**	33,250,005	165,079,729	158,848,195	868,716	39,481,539
Total Short-term investments	\$50,501,580	\$226,917,278	\$225,789,168	\$1,120,547	\$51,629,690

<sup>\*</sup>No management fees are charged to Putnam Cash Collateral Pool, LLC (Note 1). Investment income shown is included in securities lending income on the Statement of operations. There were no realized or unrealized gains or losses during the period.

### Note 6: Market, credit and other risks

In the normal course of business, the fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the contracting party to the transaction to perform (credit risk). The fund may be exposed to additional credit risk that an institution or other entity with which the fund has unsettled or open transactions will default. Investments in foreign securities involve certain risks, including those related to economic instability, unfavorable political developments, and currency fluctuations.

The fund may invest a significant portion of its assets in securitized debt instruments, including mortgage-backed and asset-backed investments. The yields and values of these investments are sensitive to changes in interest rates, the rate of principal payments on the underlying assets and the market's perception of the issuers. The market for these investments may be volatile and limited, which may make them difficult to buy or sell.

On July 27, 2017, the United Kingdom's Financial Conduct Authority ("FCA"), which regulates LIBOR, announced its intention to cease compelling banks to provide the quotations needed to sustain LIBOR after 2021. ICE Benchmark Administration, the administrator of LIBOR, ceased publication of most LIBOR settings on a representative basis at the end of 2021 and is expected to cease publication of a majority of U.S. dollar LIBOR settings on a representative basis after June 30, 2023. In addition, global regulators have announced that, with limited exceptions, no new LIBOR-based contracts should be entered into after 2021. LIBOR has historically been a common benchmark interest rate index used to make adjustments to variable-rate loans. It is used throughout global banking and financial industries to determine interest rates for a variety of financial instruments and borrowing arrangements. Actions by regulators have resulted in the establishment of alternative reference rates to LIBOR in most major currencies. Various financial industry groups have been planning for the transition away from LIBOR, but there are obstacles to converting certain longer-term securities and transactions to new reference rates. Markets are developing slowly and questions around liquidity in these rates and how to appropriately adjust these rates to mitigate any economic value transfer at the time of transition remain a significant concern. Neither the effect of the transition process nor its ultimate success can yet be known. The transition process might lead to increased volatility and illiquidity in markets that rely on LIBOR to determine interest rates. It could also lead to a reduction in the value of some LIBOR-based investments and reduce the effectiveness of related transactions, such as hedges. While some LIBOR-based instruments may contemplate a scenario where LIBOR is no longer available by providing for an alternative rate-setting methodology, not all may have such provisions and there may be significant uncertainty regarding the effectiveness of any such alternative methodologies. Since the usefulness of LIBOR as a benchmark could deteriorate during the transition period, these effects could occur at any time.

<sup>\*\*</sup> Management fees charged to Putnam Short Term Investment Fund have been waived by Putnam Management.

There were no realized or unrealized gains or losses during the period.

The Covid–19 pandemic and efforts to contain its spread have resulted in, among other effects, significant market volatility, exchange trading suspensions and closures, declines in global financial markets, higher default rates, significant changes in fiscal and monetary policies, and economic downturns and recessions. The effects of the Covid–19 pandemic have negatively affected, and may continue to negatively affect, the global economy, the economies of the United States and other individual countries, the financial performance of individual issuers, sectors, industries, asset classes, and markets, and the value, volatility, and liquidity of particular securities and other assets. The effects of the Covid–19 pandemic also are likely to exacerbate other risks that apply to the fund, which could negatively impact the fund's performance and lead to losses on your investment in the fund. The duration of the Covid–19 pandemic and its effects cannot be determined with certainty.

# Note 7: Summary of derivative activity

The volume of activity for the reporting period for any derivative type that was held during the period is listed below and was based on an average of the holdings at the end of each fiscal quarter:

Futures contracts (number of contracts)	30
Forward currency contracts (contract amount)	\$62,500,000

The following is a summary of the fair value of derivative instruments as of the close of the reporting period:

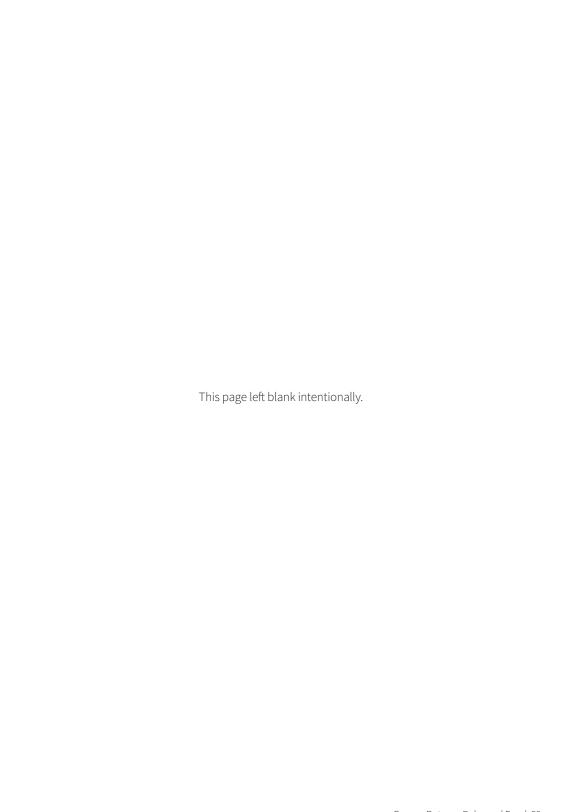

Fair value of derivative instruments as of the close of the reporting period					
	ASSET DER	IVATIVES	LIABILITY DERIVAT	IVES	
Derivatives not accounted for as hedging instruments under ASC 815	Statement of assets and liabilities location	Fair value	Statement of assets and liabilities location	Fair value	
Foreign exchange contracts	Investments, Receivables	23,170	Payables	1,087,405	
Equity contracts	Investments, Receivables, Net assets — Unrealized appreciation	572,252 <sup>*</sup>	Payables, Net assets — Unrealized depreciation	_	
Total		\$595,422		\$1,087,405	

<sup>\*</sup>Includes cumulative appreciation/depreciation of futures contracts as reported in the fund's portfolio. Only current day's variation margin is reported within the Statement of assets and liabilities.

The following is a summary of realized and change in unrealized gains or losses of derivative instruments in the Statement of operations for the reporting period (Note 1):

Amount of realized gain or (loss) on derivatives recognized in net gain or (loss) on investments					
Derivatives not accounted for as hedging instruments under ASC 815	F Futures	orward currency contracts	Total

### Note 8: Offsetting of financial and derivative assets and liabilities

The following table summarizes any derivatives, repurchase agreements and reverse repurchase agreements, at the end of the reporting period, that are subject to an enforceable master netting agreement or similar agreement. For securities lending transactions or borrowing transactions associated with securities sold short, if any, see Note 1. For financial reporting purposes, the fund does not offset financial assets and financial liabilities that are subject to the master netting agreements in the Statement of assets and liabilities.
