

**Albert Chan, CFA**

*Head of Portfolio Construction  
Investment Management*

Mr. Chan is Head of Portfolio Construction within Fixed Income. He is responsible for Putnam's term structure strategies, including interest-rate and FX trading implementation, and quantitative modeling. He leads the team's efforts in researching market and macroeconomic data, building quantitative models, recommending broad positioning and portfolio construction ideas, and overseeing and monitoring portfolio implementation. In addition, Mr. Chan is a portfolio manager of multi-sector fixed income portfolios, including Putnam's Core Global, Fixed Income Global Alpha, Global Government, and Short Duration Bond strategies. He has been in the investment industry since he joined Putnam in 2002.

Previously at Putnam, Mr. Chan served on the Investment-Grade Corporate, Global Term Structure, and High-Yield Corporate teams, including as an Analyst and a Portfolio Construction Specialist.

Mr. Chan earned an M.S. in Financial Engineering from the University of California, Berkeley, and a B.S. in Computer Engineering from Simon Fraser University.
